

July 2016

Dear Leader of the Hardeeville Business Community,

A library plays an important role in a community. Here in Hardeeville, the community library has provided resources to residents for decades.

To allow for services required of a modern library, the City of Hardeeville is building a new facility to open in February 2017. The building has areas for all age groups, shelves to accommodate over 14,000 books and other lending items, a computer lab as resource for those looking for employment and those without computer access in their homes, and a meeting area to hold educational and entertainment programs, such as Summer Reading and other literacy programs to children and teens.

To assure that this facility will meet the needs of the community, the City of Hardeeville, Jasper County and AHJ Regional Library are reaching out to the business leaders in the community to help fund collections and technologies in this beautiful facility.

Because we know you value the library and the services it provides to our community, please consider a gift towards the Hardeeville Library.

Attached is a list of areas in which the library needs help to carry out its work in the new building, as well as a list of the levels of donations. If you are interested in making a personal donation, please contact us or fill out and mail back the attached form.

Thank you for your consideration and continued support.

Regards,

Scott D. Strawn
Director
