**WHEREAS**, the Act recognizes that "The lack of certainty in the approval of development can result in a waste of economic and land resources, can discourage sound capital improvement planning and financing, can cause the cost of housing and development to escalate, and can discourage commitment to comprehensive planning." [Section 6-31-10 (B)(1)]; and,

**WHEREAS**, the Act also states: "Development agreements will encourage the vesting of property rights by protecting such rights from the effect of subsequently enacted local legislation or from the effects of changing policies and procedures of local government agencies which may conflict with any term or provision of the Development Agreement or in any way hinder, restrict, or prevent the development of the project. Development Agreements will provide a reasonable certainty as to the lawful requirements that must be met in protecting vested property rights, while maintaining the authority and duty of government to enforce laws and regulations which promote the public safety, health, and general welfare of the citizens of our State." [Section 6-31-10 (B)(6)]; and,

**WHEREAS**, the Act further authorizes local governments, including city governments, to enter Development Agreements with property owners to accomplish these and other goals as set forth in Section 6-31-10 of the Act; and,

**WHEREAS**, this Development Agreement is being made and entered between Owner and the City, under the terms of the Act, for the purpose of providing assurances to Owner that it may proceed with its development plan under the terms hereof, as hereinafter defined, consistent with its approved Planned Development District Standards, (as hereinafter defined) without encountering future changes in law which would materially affect the ability to develop under the Standards, and for the purpose of providing important protection to the natural environment and long term financial stability and a viable tax base to the City, and for the purpose of providing certain funding and funding sources to assist the City in meeting the service and infrastructure needs associated with the development authorized hereunder; and

**WHEREAS**, the City of Hardeeville strongly supports the critical need for attainable housing in our community to provide a range of housing options for all the various professionals, skilled trades, and workers; and

**WHEREAS**, the City has adopted an attainable housing policy and seeks to promote attainable housing in the City's Comprehensive Plan and therefor the City in cooperation of the Owner is willing to incentivize the Owner to build attainable housing units within the development by lowering the voluntary development fees; and

The City agrees to cooperate with the Owner in connection with providing such irrigation water in connection with the Development of the Property.

**8.** City services, including, but not limited to, police, fire, sanitation, recreation and other governmental services shall be supplied to the Property in the same manner and to the same extent as provided to other properties within the City, subject to the limitations (if any) of Sections XI and XII above. Wherever said consent or approval is required, the same shall not be unreasonably withheld.

4. The Concept Plan is not intended to be rigid, exact site plans for future development. The location of roads, buildings, recreational amenities and other elements may vary at the time of permit applications when more specific designs are available, as long as the maximum densities set herein, and the general concept of environmentally sensitive residential and commercial developments suggested by the Concept Plan and master plans are followed and respected.
